

### ***Honeymoon Blend White Tea***

This exquisite Jasmine silver needle white tea from China, which contains only the youngest buds of the tea bush, is scented by carefully layering the tea with fresh Jasmine blossoms overnight and then painstakingly removing the Jasmine once the aroma has been absorbed. This process is repeated up to seven times. We have blended this delicate tea with exotic orange blossom for a sweet honey aroma and perfect rose buds for a touch of romance. A luxurious blend, perfect for special occasions. This is truly wonderful served iced.
